

Summer 2008 E-Raven: A newsletter of the Oregon Chapter of The Wildlife Society

Annual Meeting

[2009 Annual Oregon TWS Meeting and Call for Papers](#)
The 2009 Annual Oregon TWS Meeting will be held February 10-13, 2009 at Salishan Spa and Golf Resort in Gleneden Beach. [Read More . . .](#)

[2008 Annual Award Winners](#)
Each year, the ORTWS recognizes numerous individuals and organizations for their contributions in the wildlife arena. [Read More . . .](#)

Committees

[The Conservation Affairs Committee and You - A Follow-up to the Annual Meeting at Salishan in 2008](#)
At the annual meeting at Salishan, a sign-up sheet was circulated for you to indicate your areas of expertise and interest in helping the Conservation Affairs Committee in the coming year. As we enter the next legislative session, contacted for this critically important role, and the outcomes of this effort. [Read More . . .](#)

Symposia and Workshops

[The 2008 TWS Pacific Northwest Beaver Symposium](#)
About 100 people participated in the beaver symposium at the annual TWS meeting at Gleneden Beach. [Read More . . .](#)

[Snow Tracking Workshop - Getting Back to the Basics](#)

Few people can read a story in the mud, snow, or forest duff and convince another of its validity. One who can and does is Dr. James Halfpenny. [Read More . . .](#)

[Purple Loosestrife Invasion in the Lower Columbia River Estuary - A Workshop](#)

The U.S. Fish and Wildlife Service's Coastal Program held a workshop to explore the magnitude and extent of the purple loosestrife (*Lythrum salicaria*) invasion in the lower Columbia River Estuary. [Read More . . .](#)

Wildlife Biology

[Mountain Quail in the Trout Creeks](#)

Gently pushing aside a clump of grass near the base of a boulder, I find what I'm looking for: A cozy nest cup containing nine light brown eggs. It is the first known mountain quail nest in the Trout Creek Mountains for the better part of half a century. [Read More . . .](#)

[Monitoring Dry Creek Columbia Spotted Frogs](#)

Each year, Columbia spotted frogs are captured and tagged to monitor long-term population trends, demographics and movement patterns along Dry Creek (a perennial stream in southeast Oregon). [Read More . . .](#)

Fun Facts About Bird Longevity

If the average house cat kills 5 birds per year (a low estimate for a cat that regularly "hunts"), then 500,000,000 birds die annually from cat predation.
